The CEBC will only review programs that have:

- At least one randomized control trial on the outcomes of the program that has been published in a peer-reviewed journal (In Press articles are allowed, when accompanied by documentation from the journal) AND
- A book or manual that describes how to implement the program and/or are willing to provide training or consultation on the program to external agencies who want to implement the program

The CEBC adds a limited number of programs in existing topic areas each year. The CEBC has an open window for submission of programs every year. To find out when the next opportunity will be, they should go to Question 2b on the FAQs page (www.cebc4cw.org/faqs-2/). During the open submission window, interested developers/program representatives are asked to complete in a quick online form about their program and given access to a multiple page questionnaire in Microsoft Word. Those who are not affiliated with the program should contact the program directly and provide a program representative with the link above so that they can submit the program themselves.

All required information will need to be completed by the deadline for a program to be considered, including:

- Completing the entire program questionnaire
- AND
- Submitting copies of ALL published, peer-reviewed research articles that are cited in the Relevant Research section of the questionnaire
  - The CEBC will only review programs in which electronic copies of all articles are submitted. Please do not refer to a bibliography or a website in lieu of submitting articles.

Submission of the program does not guarantee the program will be added to the CEBC website. The CEBC will confirm receipt of the program questionnaire via email. The CEBC review process takes at least six months to complete. If you have questions about the process, please go to the Contact CEBC page (http://www.surveygizmo.com/s3/1817921/CEBC-Contact-Us-copy) to submit your question using the “Other” option under reason for contacting.

The CEBC is operated by Rady Children’s Hospital-San Diego (RCHSD): Chadwick Center for Children & Families. The CEBC is made possible with funding from the California Department of Social Services (CDSS): Office of Child Abuse Prevention. Any opinions, findings, conclusions and/or recommendations expressed are those of RCHSD and do not necessarily reflect the views of the CDSS.
