

ProtectOHIO Kinship Supports Intervention Logic Model

INPUTS	ACTIVITIES	OUTPUTS	OUTCOMES
Kinship coordinators/staff	Locate kin	Number of kinship caregivers and children served	Decrease out of-home (nonkin) placement days
Staff training	Home assessment		
Culture/policy change	Kin needs assessment	Communication/collaboration between kinship coordinators and caseworkers	Increase permanency
Availability of services	Support planning		Maintain child safety
	Ongoing contact (e.g., home visits)	Kinship coordinator relationship to PCSA staff	Decrease reentry to care
	Kinship coordinator information & training	Amount/range of services provided (compared to needs)
